The Qualifications and Outcomes

This is a physical education qualification for QTS educational professionals developed by the **Association for Physical Education** and accredited by the **Leadership Skills Foundation** (formerly Sports Leaders UK). This nationally recognised qualification builds upon the knowledge and skills attained at Level 5, advancing on to a detailed, secure understanding of high-quality leadership and management of physical education curriculum within primary schools. On successful completion of this qualification, delegates will be able to advocate, articulate and lead physical education within a myriad of ways that subsequently impact upon whole school improvement and community subject profiling.

In depth coverage of the characteristics and functions of the role of an outstanding PE leader will include exploring subject pedagogy and demonstration of effective strategies to enhance the quality of such areas as auditing; action planning; recognising and leading upon improvements in teaching & learning and managing purposeful, mutually beneficial monitoring support. Delegates will also attain an enriched understanding of the attributes that PE has to offer wider school improvement and with the tool kit of approaches to deliver successfully. **Delegates who haven't completed the level 5 certificate in PE specialism, or who do not carry QTS, can still access this course as a CPD opportunity.**

Why Participate and What are the Benefits?

- Guaranteed to further enhance delegates' confidence, competence and PE subject knowledge
- The qualifications will be an effective use of the primary physical education and school sport premium funding in addressing the goal of continuous professional development. All costs (including any supply cover) are fundable via this ringfenced grant for schools.
- The course will utilise regional expertise so as to enable relevant and bespoke delivery including (if required) additional support and mentoring opportunities.

'The Level 5/6 qualifications are already giving generalist teachers the chance to specialise on the job... That's great news.' Former Children & Families Minister, Edward Timpson at the afPE National Conference
